Job Title: CNC Set up Operator
Status: Full Time
Reporting to: Manager, Machine Shop
Location: Ottawa, Ontario

About Lee Valley:

Since 1978, Lee Valley has recognized that woodworking and gardening are not just hobbies, but are for many a lifestyle choice. Lee Valley Tools enjoys a proud 40-year history of providing high-quality woodworking, gardening, hobby, hardware, gift and seasonal merchandise to customers worldwide. Our customer service is renowned. We pride ourselves in providing quality in all products, whether developed and manufactured internally or sourced elsewhere.

A position at Lee Valley is more than just a job – we honor the time and dedication that our people give by providing sustained and meaningful employment and we strive to provide an environment where learning and development are encouraged.

Veritas is the manufacturing division. We are committed to domestic manufacturing because it differentiates us and opens export markets. The culture includes authentic devotion to all employees plus quality in all products, whether developed and manufactured internally or sourced elsewhere. An excellent opportunity exists in our Machine Shop.

Overview:

The CNC Set up Operator is responsible for setting up and running state-of-the-art CNC equipment. As part of a high-performance team, he or she is responsible for part quality, equipment maintenance and continuous quality improvement.

Key Responsibilities:

- Set-up and operation of various machine-shop equipment, including CNC milling and turning centers as well as surface grinders
- Verification of part conformity and making process adjustments, as required
- Being an active member of a manufacturing team; working to continually improve processes
- Autonomous maintenance

Knowledge and Skills:

- Post-secondary education in Machine Shop or a related discipline
- 1-5 years of experience in a machining environment
- Experience with set up and operating manual or CNC equipment
- An ability to read drawings and use precision measuring equipment to verify results
- Strong desire for quality workmanship in a production environment

- Good attendance and reliability

Working Conditions:

- Work involves occasional exposure to major disagreeable elements, medium risk of injury/harm/ illness, more stringent safety measures may be needed
- Shift rotation required
